

March 18, 2020

Dear Pathways In Education families,

We thank you in advance for your flexibility during this challenging time. Heeding the advice of the CDC and state officials regarding social distancing, we wanted to remind you that **Pathways campuses are now physically closed until further notice. All academic instruction has moved to remote platforms.** At present, we anticipate needing to engage distance learning strategies for the next 30 days, however, we will continue to monitor all facets of this situation carefully and will inform you if any changes to the timeline become necessary. The Pathways In Education blended learning model is uniquely suited to allow students to work remotely through various instructional modalities, including:

- Independent study with student activity workbooks
- Online classes (conducted through Edmentum)
- Small group instruction via virtual classrooms

Our goal is to have Pathways students enrolled in multiple classes during this transition so that they can continue to complete coursework uninterrupted. Pathways teachers and staff will be reaching out to schedule virtual or phone appointments.

We thank you again for your adaptability and resilience. Pathways staff is working around the clock to ensure that your child's education undergoes the least amount of disruption, and that our communities stay as healthy and safe as possible.

We will continue to provide you with updates throughout the coming weeks.

Sincerely,

Pathways In Education Leadership
